Still making malt? Use our malt enzymes! Industrial grade Alpha and Glucoamylase can decrease cost, increase yield, and produce batches with less time investment.

Increase yields with our Xylanase, Cellulase and Glucanase Complex. Convert plant sugars that yeast normally can't eat into consumable glucose.

Make sure your ethanol is absolute. Use our Zeolite to ensure your ethanol is water-free; a must have for anyone producing **biodiesel** with ethanol.

Learn how to make ethanol to fuel your cars, farm equipment or simply help remove ourselves from our

Website News...

More Modern Website in the Works
Saturday, January 6th

We at The Ethanol Source have recently acquired a new developer that will help us move into the new year with a far more modern website. This will allow more fluid integration of all parts of this website. Keep checking back for more content.

High Quality Yeast Now Available
Saturday, September 30th

We have switched from Gert Strand A.B. brand yeast to newer, more advanced yeast technology from White Labs. This particular strain of yeast is specifically suited for producing large batches of alcohol. In two days it can ferment to a 14% alcohol potential, up to an unprecedented 22% in five days. It is targeted at customers producing batches from "abnormal" material that other yeasts are not suited for. It has high tolerance for dissolved solids, high osmotic pressure and is very temperature tolerant. We are offering this as a devotion to our customers and the home producer. We will continue to upgrade and refine the products we offer. Bulk boxes of 44 pounds (20 kilograms) are also available! View the yeast in our catalog for more information.

Added Forums
Friday, July 15th

Forums have been added. A lot of people have been emailing me asking for an open place to discuss their ideas. I have added it to the main header. Here is a link.

Main Page Styling and Offsite Resources
Sunday, June 4th

I did some minor styling on the main page and began restyling the library section. Check out the offsite resources,

unwavering alliance on foreign oil.

How many enzymes and how much yeast? Use this calculator to give dosages for conversion of corn, wheat and other feedstocks. Also gives expected yield increase values for our Xylanase, Cellulase and Glucanase Complex.

Already making ethanol? Learn how you can increase yields, or make ethanol from other feedstock. Anything organic is a potential source. We can show you how.

Make your biodiesel even cleaner! Learn how to produce ethyl esters, the analog of methyl esters that methanol-free and that doesn't rely on petroleum sources of alcohol.

Find out which cars are E85 ready, or learn how to convert your automobile to run higher blends of ethanol. Read more about the pros and cons of running ethanol.

Find out where you can buy E85 near your location.

More Resources...

Very low starting capital? Find out what grants may be available to you for your ethanol, **biodiesel** and other alternative fuel projects.

Discover how easy it is to receive your free permit from the U.S. Bureau of Tobacco, Alcohol and Firearms to produce fuel ethanol. Find out the requirements and procedures you'll need to follow.

How much ethanol does one hundred pounds of wheat make? Find out with our ethanol yield calculator.

The Zeolite Calculator can tell you how much zeolite you'll need to achieve anhydrous ethanol.

The Biodiesel Calculator will tell

some new links have been added. Continue checking back!

Added News Feeds Wednesday, May 24th

Added automatically updating newsfeeds on the main page. Provided by Yahoo! News

Content Addition Wednesday, May 10th

After a couple days of rest, I'm restarting content addition. Feel free to help!

Free Hosting for Ethanol and Biodiesel Users Tuesday, May 9th

I'm glad to announce that I can help host biofuel related websites. All sites can have access to CGI, MySQL, PHP, domain name hosting and more. Please contact me at bpturner@gmail.com if you're interested in having a site hosted.

www.theEthanolSource.com is Live Saturday, May 6th

Website is no longer beta. Catalog is functioning and the ethanol calculator works. Expect more in the following weeks as I begin to add more content.

Ethanol in the News...

Sector Snap: Ethanol Mixed (AP via Yahoo! Finance) Thursday, June 21st

Shares of ethanol producers were mostly down Thursday despite a stronger profit forecast from Andersons Inc. that an analyst said did not reflect prospects of other, less diversified companies in the sector.

Braskem Produces Ethanol-Based Plastic (AP via Yahoo! Finance) Thursday, June 21st

Brazilian chemical company Braskem SA said Thursday it has produced the world's first ethanol-based polyethylene plastic, in a move to develop "green" plastic for commercial markets.

The Andersons: Ethanol Producer Boosts Earnings Estimate (Seeking Alpha via Yahoo! Finance) Thursday, June 21st

Todd Sullivan submits: I thought high corn prices were supposed to be hurting ethanol producers . . . The Andersons Inc., boosted its 2007 per-share-earnings estimate to a range of \$2.80 to \$3.05 from \$2.35 to \$2.60.

Bankers differ on ethanol profitability (CNN Money)

you how much potassium or sodium hydroxide and methanol/ethanol to use as catalyst, given pH and volume of titrated oil.

Offsite Resources. We could not have done this all by ourselves. Read some of the guides, web sites and manuals that were created and that we used.

Wednesday, June 20th

Two big investment banks sent mixed signals about the profitability of ethanol Wednesday, with one citing potential for solid demand growth and easing corn prices, but the other less convinced.

**Gulf Ethanol Begins Negotiations To Acquire Plant Site In East Texas (Nasdaq)
Thursday, June 21st**

(RTTNews) - Gulf Ethanol Corp. (GFET.PK) said it has begun negotiations to acquire a plant site in East Texas.

Biodiesel in the News...

**Biodiesel as independence (Concord Monitor)
Thursday, June 21st**

As oil prices continue to rise and consumers struggle with higher gas costs, Kip Riel says there's an easy solution. It's called **biodiesel**. And he insists that anyone - with \$100 and a little research - can make it in a garage.

**China Biodiesel slumps on costs warning (ShareCast)
Thursday, June 21st**

LONDON (SHARECAST) - Shares in biofuel producer China **Biodiesel** slumped on a warning that rising raw material costs will mean profits this year coming in well below forecasts.

**UK small caps extend falls midday, broader markets weak, China Biodiesel slumps (FinanzNachrichten)
Thursday, June 21st**

LONDON (Thomson Financial) - UK small caps extended falls midday, dragged down by weakness in the wider market, with China **Biodiesel** (Nachrichten) hard-hit on the back of a full-year profits warning, although Jessops rallied after unveiling its strategic review.

**Nampa family hails benefits of biodiesel (Idaho Press-Tribune)
Thursday, June 21st**

Awareness: **Jenkins** family will drive a **biodiesel**-powered motor home across country to raise awareness of alternative, renewable energy

**UK small caps open lower with wider market; China Biodiesel hit by FY warning (FinanzNachrichten)
Thursday, June 21st**

LONDON (Thomson Financial) - UK small caps opened lower, dragged down by weakness in the wider market, with China **Biodiesel** (Nachrichten) hard-hit on the back of a full-year profits warning.
